

Date	Speaker
26 <sup>th</sup> April	<p><b>Dr Mark Stevenson</b>  Toshiba Research Europe Limited  <i>“Semiconductor entangled light emitters for quantum teleportation networks”</i></p>
3 <sup>rd</sup> May	<p><b>Prof Vito Di Noto</b>  University of Padua, Italy  <i>“Graphene as key component in Electrocatalysts for Next-Generation Ion-Exchange Membrane Fuel Cells”</i></p>
10 <sup>th</sup> May	<p><b>Dr Emiliano Bilotti</b>  Queen Mary University of London  <i>“Multifunctional Polymer Nanocomposites”</i></p>
17 <sup>th</sup> May	<p><b>Prof Ute Kaiser</b>  Universität Leipzig  <i>“Properties of advanced 2D materials by low-voltage atomic-scale TEM experiments”</i></p>
24 <sup>th</sup> May	<p><b>Dr Rachel Won</b>  Nature Photonics International Editor  <i>“Publishing in Nature journals”</i></p>
31 <sup>st</sup> May	<p><b>Dr Jervis Rhodri</b>  UCL - Department of Chemical Engineering  <i>‘x-ray tomographic characterisation of redox flow battery materials’</i></p>
7 <sup>th</sup> June	<p><b>Prof Stephan Roche</b>  Catalan Institute of Nanoscience and Nanotechnology  <i>“Scientific Advances &amp; technology foresight with Two-dimensional materials”</i></p>
14 <sup>th</sup> June	<p><b>Prof Carla Molteni</b>  King's College, London  <i>“Order-disorder interplay and piezochromic effects in nanocrystals under pressure”</i></p>
21 <sup>st</sup> June	<p><b>Dr Hennequin Guillaume</b>  Cambridge University  Information Engineering Division  <i>“Neural circuit dynamics for motor control”</i></p>

28 <sup>th</sup> June	<p><b>Prof Gerardot Brian</b> Department of Physics - School of Engineering and Physical Sciences <i>"Quantum dots in two-dimensional heterostructures"</i></p>
5 <sup>th</sup> July	<p><b>Dr Anna-Maria Pappa</b> University of Cambridge <i>"Biomimetic organic electronic devices for drug discovery"</i></p>
12 <sup>th</sup> July	<p><b>Dr Costanza Toninelli</b> LENS European Laboratory for Non-Linear Spectroscopy University of Florence <i>"Single molecules for integrated quantum photonics"</i></p>
19 <sup>th</sup> July	<p><b>Dr Kalbáč Martin</b> Head of the Department of Low-dimensional Systems <i>"A tool box for graphene functionalization"</i></p>
26 <sup>th</sup> July	<p><b>Prof Aldo Boccaccini</b> Imperial College London <i>"Electrophoretic deposition: versatile processing technique for graphene and related carbon nanomaterials"</i></p>
